ACCESSIBILITY

# WHO WE ARE

WhiteBox Alliance is an open, committed, and ambitious collective that offers a permanent showroom hosting operational activities and showcasing qualified solutions and services. Our mission is to deliver practical answers to the industrial challenges of tomorrow's ultra-clean environments. Our initiative is firmly rooted in industrial reality, accessible, action-oriented, and aligned with the highest standards.

## OUR MISSION

WhiteBox Alliance's mission is to democratize access to ultra-clean environments for industrial stakeholders by pooling expertise, equipment, and spaces. To achieve this, we connect expertise, complementary know-how, and the strength of collective work within a cooperative dynamic, where each participant finds their place in an innovative network dedicated to the industrial performance of tomorrow.

## WHO IT IS FOR

The WhiteBox Alliance platform is innovative, collaborative, and accessible, serving SMEs, deeptech startups, and strategic industrial sectors seeking performance, traceability, and innovation.

We address the entire ultra-cleanliness ecosystem, both those who provide solutions and those looking for answers to their needs.

*Competitiveness clusters, industrial clusters, training centers, academic partners, consultants and experts.*
